

EXHAUST SYSTEM [SKYACTIV-G 2.0, SKYACTIV-G 2.5]

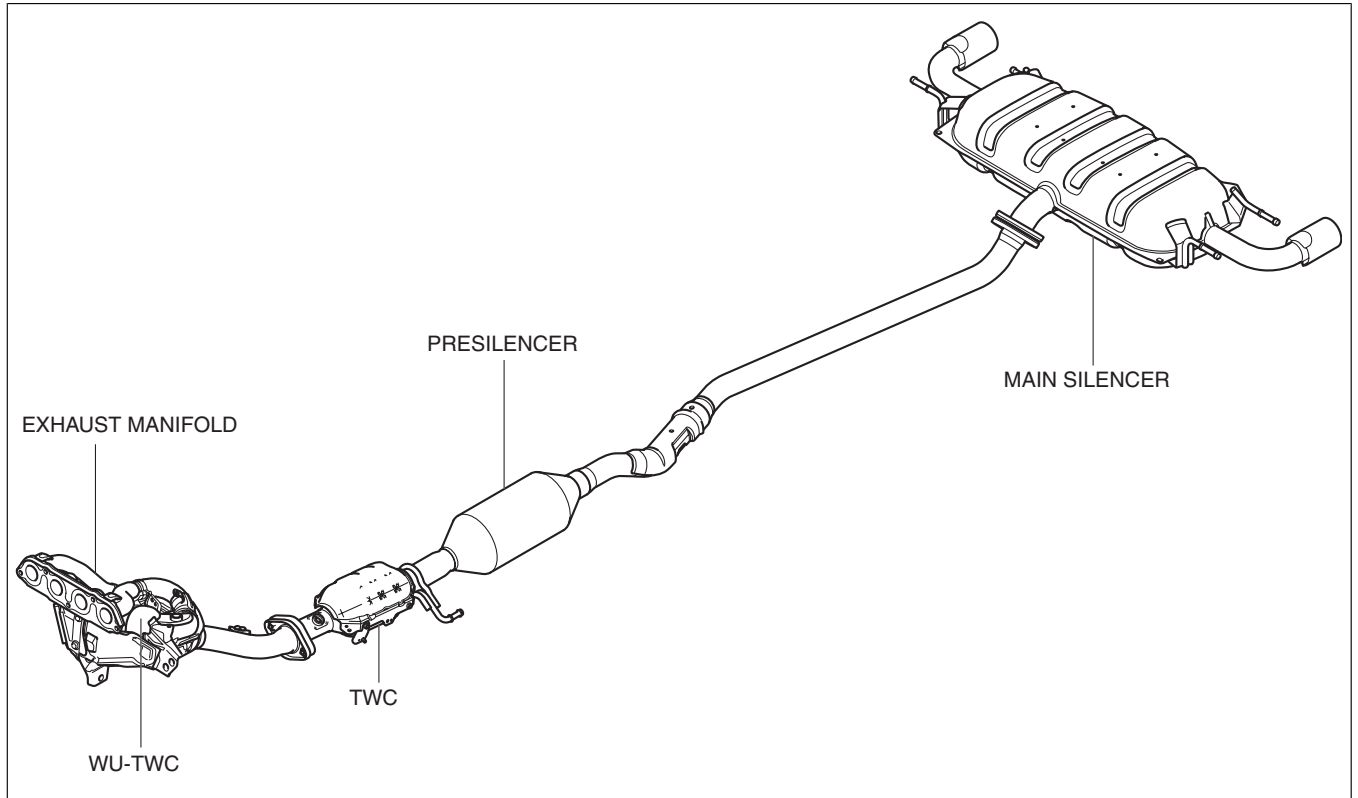

id0115z9125800

Outline

- A high compression ratio has been realized by adopting 4-2-1 exhaust pipes and reducing residual gas in the cylinders.
- The loop structure of the exhaust pipes for the 4-2-1 system takes up less space.

Structure

- The exhaust system consists of the following parts:

Part name	Reference
Main silencer	(See MAIN SILENCER [SKYACTIV-G 2.0, SKYACTIV-G 2.5].)
Presilencer	(See PRESILENCER [SKYACTIV-G 2.0, SKYACTIV-G 2.5].)

Part name	Reference
TWC	(See CATALYTIC CONVERTER [SKYACTIV-G 2.0, SKYACTIV-G 2.5].)
WU-TWC	
Exhaust manifold	(See EXHAUST MANIFOLD [SKYACTIV-G 2.0, SKYACTIV-G 2.5].)
